Nutanix Listed in AWS “ICMP” for the US Federal Government

December 3, 2025

SAN JOSE, Calif., Dec. 03, 2025 (GLOBE NEWSWIRE) -- Nutanix (NASDAQ: NTNX), a leader in hybrid multicloud computing, today announced that the Nutanix Cloud Platform (NCP) solution has been listed in the AWS Marketplace for the U.S. Intelligence Community (ICMP). ICMP is a curated digital catalog from Amazon Web Services (AWS) that makes it easy to discover, purchase, and deploy software packages and applications from vendors that specialize in supporting government customers.

NCP brings together compute, storage, and networking into one unified platform on-premises and in the cloud that’s resilient and easy to manage, helping to reduce the time and effort required to manage IT infrastructure. This empowers agencies to run applications consistently and cost effectively across data center, edge, and cloud environments.

“Federal missions depend on secure, agile, and efficient IT environments,” said Greg O’Connell, Vice President, Federal at Nutanix. “By making Nutanix available on ICMP, we’re helping agencies accelerate modernization so they can focus on delivering critical outcomes—not managing complexity. This trusted platform empowers government teams to simplify operations and keep their mission moving forward.”

About Nutanix

Nutanix is a hybrid multicloud computing leader, offering organizations a unified software platform for running applications and AI and managing data anywhere. With Nutanix, organizations can simplify operations for traditional and modern applications, freeing them to focus on business goals. Trusted by more than 29,000 customers worldwide, Nutanix helps empower organizations to transform digitally and power hybrid multicloud environments consistently, simply, and cost-effectively.
