

CORPORATE OVERVIEW

September 2022

Safe Harbor

Non-GAAP Financial Measures and Other Key Performance Measures

To supplement our consolidated financial statements, which are prepared and presented in accordance with GAAP, we use the following non-GAAP financial and other key performance measures: billings, non-GAAP gross margin, non-GAAP operating expenses, non-GAAP net loss, non-GAAP net loss per share, free cash flow, subscription revenue, subscription billings, subscription billings mix, Annual Contract Value Billings (or ACV Billings), Annual Recurring Revenue (or ARR), and Run-rate Annual Contract Value (or Run-rate ACV). In computing these non-GAAP financial measures and key performance measures, we exclude certain items such as stock-based compensation and the related income tax impact, costs associated with our acquisitions (such as amortization of acquired intangible assets, income tax-related impact, and other acquisition-related costs), impairment of operating lease-related assets, the change in fair value of the derivative liability, the amortization of the debt discount and issuance costs, non-cash interest expense, other non-recurring transactions and the related tax impact, and the revenue and billings associated with pass-through hardware sales. Billings is a performance measure which we believe provides useful information to investors because it represents the amounts under binding purchase orders received by us during a given period that have been billed, and we calculate billings by adding the change in deferred revenue between the start and end of the period to total revenue recognized in the same period. Non-GAAP gross margin, non-GAAP operating expenses, non-GAAP net loss, and non-GAAP net loss per share are financial measures which we believe provide useful information to investors because they provide meaningful supplemental information regarding our performance and liquidity by excluding certain expenses and expenditures such as stock-based compensation expense that may not be indicative of our ongoing core business operating results. Free cash flow is a performance measure that we believe provides useful information to our management and investors about the amount of cash generated by the business after necessary capital expenditures, and we define free cash flow as net cash provided by (used in) operating activities less purchases of property and equipment. Subscription revenue, subscription billings, and subscription billings mix are performance measures that we believe provide useful information to our management and investors as they allow us to better track the growth of the subscription-based portion of our business, which is a critical part of our business plan. ACV Billings and Run-rate ACV are performance measures that we believe provide useful information to our management and investors as they allow us to better track the topline growth of our business during our transition to a subscription-based business model because they take into account variability in term lengths. ARR is a performance measure that we believe provides useful information to our management and investors as it allows us to better track the topline growth of our subscription business because it takes into account variability in term lengths. We use these non-GAAP financial and key performance measures for financial and operational decision-making and as a means to evaluate period-to-period comparisons. However, these non-GAAP financial and key performance measures have limitations as analytical tools and you should not consider them in isolation or as substitutes for analysis of our results as reported under GAAP. Billings, non-GAAP gross margin, non-GAAP operating expenses, non-GAAP net loss, non-GAAP net loss per share, and free cash flow are not substitutes for total revenue, gross margin, operating expenses, net loss, net loss per share, or net cash provided by (used in) operating activities, respectively; subscription revenue is not a substitute for total revenue; and subscription billings is not a substitute for subscription revenue. There is no GAAP measure that is comparable to ACV Billings, ARR, or Run-rate ACV, so we have not reconciled the ACV, ACV Billings and Run-rate ACV numbers included in this presentation to any GAAP measure. In addition, other companies, including companies in our industry, may calculate non-GAAP financial measures and key performance measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of our non-GAAP financial measures and key performance measures as tools for comparison. We urge you to review the reconciliation of our non-GAAP financial measures and key performance measures to the most directly comparable GAAP financial measures set forth in the tables captioned “GAAP to Non-GAAP Reconciliations and Calculation of Billings” and “Disaggregation of Billings and Revenue” included in the appendix hereto, and not to rely on any single financial measure to evaluate our business.

Forward Looking Statements

This presentation and the accompanying oral commentary contain express and implied forward-looking statements, including, but not limited to, statements relating to: our business plans, strategies, vision, and objectives, including our go-to-market strategy (including our plans to focus on our renewals business and increase go-to-market leverage by executing on renewals through solution selling and partner leverage) and plans to streamline our product portfolio and promote greater diversity and inclusion in our workforce, as well as our ability to execute thereon successfully and in a timely manner and the benefits and impact thereof on our business, operations and financial results, including on our top line growth and the sustainability of our and our customers' businesses; our outlook and estimates regarding our business and financial performance in future periods, including projected growth rates (including any accelerations thereof) for revenue, ACV Billings, ARR, Run-rate ACV, operating expenses, and free cash flow, as well as the assumptions underlying such expectations (including those relating to our renewals base, mix and costs, backlog, product portfolio, sales rep count and productivity, revenue and product mix, and average contract term lengths in future periods); our plans and timing for, and the success and impact of, any current and future business model transitions (including our ongoing subscription-based business model and ACV-based sales compensation model transitions), including the impact thereof on our overall business model, renewals business, go-to-market strategy, deal economics, average contract term lengths, TCV Billings to ACV Billings ratio, revenue and product mix, renewal cycles, and top line growth; our ability to form new, and maintain and strengthen existing, strategic alliances and partnerships, as well as the impact of any changes to such relationships on our business, operations and financial results, including on our market opportunity, ability to further customer choice and enhance our platform, go-to-market leverage, and long-term success; the timing and impact of the COVID-19 pandemic on the global market environment and the IT industry, as well as on our business, operations and financial results; the competitive market, including our competitive position and ability to compete effectively and the competitive advantages of our products; our projections about our market share in future periods, including our estimates regarding the sizes and growth rates of the total addressable market for our target markets and the assumptions underlying such estimates; macroeconomic environment and industry trends, projected growth or trend analysis; our customer needs and our ability to address those needs successfully and in a timely manner; our ability to attract new end customers and retain and grow sales from our existing end customers; the benefits and capabilities of our platform, solutions, products, services and technology, including the interoperability and availability of our solutions with and on third-party platforms; our plans and expectations regarding new solutions, products, services, features, and technology, including those that are still under development or in process, and any future product roadmaps; our plans regarding, and the timing and success of, our customer, partner, industry, analyst, investor and employee events and the impact thereof on our business, operations, and financial results; our guidance on estimated ACV Billings, non-GAAP gross margin, non-GAAP operating expenses and weighted average shares outstanding for any future fiscal periods, including the assumptions underlying such estimates; and our decision to use new or different metrics, make adjustments to the metrics we use, or to provide additional information to supplement our financial reporting, and the impact thereof. These forward-looking statements are not historical facts and instead are based on our current expectations, estimates, opinions, and beliefs. Consequently, you should not rely on these forward-looking statements. The accuracy of these forward-looking statements depends upon future events and involves risks, uncertainties, and other factors, including factors that may be beyond our control, that may cause these statements to be inaccurate and cause our actual results, performance or achievements to differ materially and adversely from those anticipated or implied by such statements, including, among others: failure to successfully implement or realize the full benefits of, or unexpected difficulties or delays in successfully implementing or realizing the full benefits of, our business plans, strategies, initiatives, vision, objectives; delays or unexpected accelerations in the transition to a subscription-based business model; our ability to achieve, sustain and/or manage future growth effectively; our ability to attract, recruit, train and, where applicable, ramp to full productivity, qualified employees and key personnel; the timing, breadth, and impact of the COVID-19 pandemic; failure to timely and successfully meet our customer needs; delays in or lack of customer or market acceptance of our new products, services, product features or technology; the rapid evolution of the markets in which we compete; factors that could result in the significant fluctuation of our future quarterly operating results, including, among other things, anticipated changes to our revenue and product mix, including changes as a result of our transition to a subscription-based business model, the timing and magnitude of orders, shipments and acceptance of our solutions in any given quarter, our ability to attract new and retain existing end-customers, changes in the pricing of certain components of our solutions, and fluctuations in demand and competitive pricing pressures for our solutions; the introduction, or acceleration of adoption of, competing solutions, including public cloud infrastructure; and other risks detailed in our most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q filed with the U.S. Securities and Exchange Commission, or the SEC. Additional information will also be set forth in our Annual Report on Form 10-K that will be filed for the fiscal year ended July 31, 2021 which should be read in conjunction with this presentation and the financial results included herein. Our SEC filings are available on the Investor Relations section of our website at ir.nutanix.com and on the SEC's website at www.sec.gov. These forward-looking statements speak only as of the date of this presentation and, except as required by law, we assume no obligation, and expressly disclaim any obligation, to update, alter or otherwise revise any of these forward-looking statements to reflect actual results or subsequent events or circumstances.

Q4 and Fiscal 2022 Company Highlights

Reports 27% YoY ACV Billings Growth and Achieves Positive Free Cash Flow for Fiscal 2022: ACV Billings of \$756 million were up 27% year-over-year. Achieved positive free cash flow for fiscal 2022, the first time in four years.

Announced Nutanix Cloud Clusters (NC2) on Microsoft Azure Progressed to Public Preview: This will significantly increase the number of customers who will have access to NC2 on Azure in the near term.

Released Latest Version of Nutanix Hybrid Cloud Infrastructure Software: The AOS™ 6.5 release is a comprehensive and feature-rich update for Nutanix's core hyperconverged infrastructure software, delivering improved performance, security, and integrated data services.

Appointed Andrew Brinded as Chief Revenue Officer: Nutanix announced the appointment of Andrew Brinded as Chief Revenue Officer on August 1, 2022. Andrew has been a Nutanix sales leader for over five years, previously having served as Senior Vice President & Worldwide Sales Chief Operating Officer, where he led global sales strategy and operations.

Note: See Appendix for definitions of ACV Billings and ACV. There is no GAAP measure that is comparable to ACV Billings or ACV, so the Company has not reconciled the ACV Billings and ACV numbers in this presentation to any GAAP measure.

Management Commentary

Rajiv Ramaswami, President and Chief Executive Officer

“Our fourth quarter capped off a fiscal year that showed strong year-over-year top and bottom line improvement. Fiscal 2022 was an important data point in demonstrating the long-term benefits of our subscription business model transition. We expect these benefits to compound further in the coming years as renewals become a bigger share of our business.”

Rukmini Sivaraman, Chief Financial Officer

“Our Fiscal 2022 results reflect strong progress on our subscription model with 27% year-over-year ACV billings growth and achievement of positive free cash flow, which we expect to be sustainable on an annual basis. We continue to see good execution on our building base of subscription renewals and remain focused on driving towards profitable growth.”

Q4'22 Financial Summary

	Q4'22 Results	Y/Y Change	Q4'22 Guidance
ACV Billings	\$193.2M	10%	\$175 - \$185M
Annual Recurring Revenue	\$1.20B	37%	N/A
Average Contract Term	3.2 Years	(0.2) Year	N/A
Revenue	\$385.5M	(1)%	\$340 - \$360M
Non-GAAP Gross Margin	82.6%	(30) bps	~79 to 80%
Non-GAAP Operating Expenses	\$355.8M	(4)%	\$360 - \$365M
Non-GAAP Net Loss Per Share	\$(0.17)	\$0.09	N/A
Free Cash Flow	\$23.2M	\$65.4M	N/A

Note: See Appendix for GAAP to Non-GAAP reconciliations, as well as definitions of ACV Billings, Annual Recurring Revenue, and Average Contract Term. There is no GAAP measure that is comparable to ACV, ACV Billings or Annual Recurring Revenue, so the Company has not reconciled the ACV, ACV Billings, and Annual Recurring Revenue in this presentation to any GAAP measure.

Annual Recurring Revenue

Note: See Appendix for definition of Annual Recurring Revenue. There is no GAAP measure that is comparable to Annual Recurring Revenue, so the Company has not reconciled the Annual Recurring Revenue numbers in this presentation to any GAAP measure.

ACV Billings

Note: ACV Billings exclude amounts related to professional services and hardware. See Appendix for definitions of ACV and ACV Billings. There is no GAAP measure that is comparable to ACV or ACV Billings, so the Company has not reconciled the ACV and ACV Billings numbers in this presentation to any GAAP measure.

Nutanix Core Values

HUNGRY

To Be the Best

- Be **Ambitious** to achieve our dreams
- Be **Courageous** to do what matters
- Be **Tenacious** to keep customers happy

HUMBLE

In How We Think and Act

- Be **Empathetic** to employees, customers, partners
- Be **Respectful** of differences
- Be **Appreciative** of others

HONEST

To Do the Right Thing

- Be **Authentic** and true
- Be **Credible** – walk your talk
- Be **Transparent** for stronger collaboration

Appendix

Endnotes and Market Opportunity Data

Endnotes

1. Cumulative total customer count reflects standard adjustments and/or consolidations to certain customer accounts within our system of record and is rounded to the nearest 10.
2. G2K lifetime ACV repeat purchase multiple is defined as ACV of total lifetime purchase divided by ACV of initial purchase, for G2K customers that have been customers for over 18 months. G2K customers are customers who are listed on the Global 2000 list as reported and updated annually by Forbes.
3. The software-only HCI market share information provided in the oral commentary accompanying this presentation is based on Market Share: Data Center Hardware Integrated Systems, Worldwide, 3Q20 Update, published on December 29, 2020, by Gartner, and does not, and will not, reflect subsequent updates by Gartner.

Market Opportunity Data

Certain information contained in this presentation and the accompanying oral commentary may relate to or be based on studies, publications, surveys and other data obtained from third-party sources and the Company's own internal estimates and research. While the Company believes these third-party studies, publications, surveys and other data are reliable as of the date hereof, they have not been independently verified, and the Company makes no representation as to the adequacy, fairness, accuracy, or completeness of any information obtained from third-party sources.

The Company believes the Company's overall market is composed of **Adjacent Markets** and **Hybrid Cloud Market**. The Company defines **Adjacent Markets** as being composed of desktop-as-a-service (DaaS), database automation and database-as-a-service (DBaaS), files and objects storage, cloud management, and disaster recovery-as-a-service (DRaaS) markets. The **Total Addressable Market**, or **TAM**, data for the Company's Adjacent Markets included in this presentation are the Company's estimates derived from IDC and Gartner forecasts regarding the component markets with adjustments, some of which are based on the Company's internal assumptions and market experience and knowledge, made to focus only on the segments of the applicable markets that the Company believes are applicable to the Company's business. The Company defines **Hybrid Cloud Market** as being composed of HCI Market and Public Cloud Market. The TAM data for the Company's **Hyperconverged Infrastructure Market**, or **HCI Market**, and **Public Cloud Market** included in this presentation are the Company's estimates derived from IDC forecasts regarding the hyperconverged infrastructure market and infrastructure-as-a-service (IaaS) server and storage markets, respectively, with adjustments, some of which are based on the Company's internal assumptions and market experience and knowledge, made to focus only on the segments of the applicable markets that the Company believes are applicable to the Company's business.

Definitions

Key Definitions and Why They Matter

Metric	Definition	Why It Matters
Annual Contract Value (ACV)	Annual Contract Value, or ACV, is defined as the total annualized value of a contract, excluding amounts related to professional services and hardware. The total annualized value for a contract is calculated by dividing the total value of the contract by the number of years in the term of such contract, using, where applicable, an assumed term of five years for contracts that do not have a specified term.	Enables a term agnostic comparison
ACV Billings	ACV Billings, for any given period, is defined as the sum of the ACV for all contracts billed during the given period. ACV Billings is the sum of New ACV Billings and Renewals ACV Billings.	Measures total business billed in any given period
ACV Bookings	ACV Bookings, for any given period, is defined as the sum of the ACV for all contracts booked during the given period.	Measures total business booked in any given period
Annual Run Rate (ARR)	Annual Run Rate, or ARR, for any given period, is defined as the sum of ACV for all non-life-of-device contracts in effect as of the end of a specific period. For the purposes of this calculation, we assume that the contract term begins on the date a contract is booked, unless the terms of such contract prevent us from fulfilling our obligations until a later period, and irrespective of the periods in which we would recognize revenue for such contract.	A proxy of annual recurring revenue, and measures earnings potential

Note: All financial measures used in this presentation, except revenue, are expressed on a non-GAAP basis and have been adjusted to exclude certain charges. We have provided, to the extent available, reconciliations of these non-GAAP financial measures to GAAP financial measures in the Appendix to this presentation.

Key Definitions and Why They Matter

Metric	Definition	Why it Matters
Average Contract Term	Average Contract Term represents the dollar-weighted term, calculated on a billings basis, across all subscription and life-of-device contracts, using an assumed term of five years for life-of-device licenses, executed in the period.	Helps determine total contract value for contracts billed
Gross Retention Rate (GRR)	Gross Retention Rate, or GRR, for any given period, is calculated by dividing ARR at the end of the period excluding any up-sell/expansion by the ARR of the same group of customers at the beginning of that 12-month period.	Represents ARR retained every year from existing customer base; a proxy for long-term health
New ACV	New ACV is defined as the ACV pertaining to sales to a new customer, or any up-sell / expansion sales to an existing customer.	Measure new/expansion business and effectiveness of S&M spend
New ACV Billings	New ACV Billings, for any given period, is defined as the sum of the New ACV billed during the given period.	Measures new/expansion business and effectiveness of S&M spend
Renewals ACV Billings	Renewals ACV Billings, for any given period, is defined as the sum of the ACV of all renewal contracts billed during the given period.	Measures renewals ACV billings

Note: All financial measures used in this presentation, except revenue, are expressed on a non-GAAP basis and have been adjusted to exclude certain charges. We have provided, to the extent available, reconciliations of these non-GAAP financial measures to GAAP financial measures in the Appendix to this presentation.

Key Definitions and Why They Matter

Metric	Definition	Why it Matters
Total Contract Value Bookings (TCV Bookings)	Total Contract Value Bookings, or TCV Bookings, for any given period is defined as the total software and support contracts booked during such period, which excludes amounts associated with pass-through hardware sales during the period.	Measures TCV booked in any given period

Note: ACV and ACV Billings are performance measures that the Company believes provides useful information to its management and investors as they allow the Company to better track the topline growth of its business during its transition to a subscription-based business model because it takes into account variability in term lengths. ARR is a performance measure that the Company believes provides useful information to its management and investors as it allows the Company to better track the topline growth of its subscription business because it takes into account variability in term lengths. There is no GAAP measure that is comparable to ACV, ACV Billings, ACV Bookings, ARR, New ACV, Renewals ACV Billings, or TCV Bookings so the Company has not reconciled the ACV, ACV Billings, ACV Bookings, ARR, New ACV, Renewals ACV Billings, or TCV Bookings numbers included in this presentation to any GAAP measure.
